## PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

### SUMMARY

Kovel Army Barracks North is located on the north side of Kovel, adjacent to the Kovel railroad transshipment site (Figure 1). The area covers approximately 230 acres and is road served with rail access.

The installation (Figures 2 and 3) contains two multistory barracks, five barracks, 16 administration buildings, three vehicle maintenance buildings, seven vehicle storage buildings, 19 storage buildings, two probable ammunition

storage buildings, one support building, one unidentified tower and one water tower.

Training facilities include a drill field and a driver-training course with a figure-8 turning circle.

The installation is active and no change has been noted [ ] however, improvement in the quality of photography shows buildings which are not new but could not be identified on earlier photography.
